USSE2 – Contract Update
9/29/15

Dear Site Operations Support Services Employees,

You may have seen site emails and news coverage concerning a potential government shutdown later this week. USSE2 received guidance from NETL regarding the potential for a lapse in appropriations at midnight on September 30, 2015. NETL notified USSE2 that site support contractor employees are expected to report to work as usual on October 1, unless the employee has been previously approved to take leave, and continue to report to work until otherwise notified. Our contract has adequate funding on all task orders to enable us to continue to work. A similar message was posted on the NETL intranet notifying all DOE Federal employees of the same.

Please continue to focus on safely performing your work and we will provide you with any additional information as it becomes available.

Be Safe,

Dane Anderson
Program Manager, NETL – Site Operations Support Services
USSE2 O&M Services
