Contract Update

11/21/2019

Dear Site Operations Support Services Employees,

The purpose of this memo is to provide you with the latest update on our contract status. As we move further through the month of November it is becoming increasingly likely that we will receive an extension to our current contract. We anticipate a formal announcement in early December extending USSE2 through March 31st, 2020. Logically we should then expect an award announcement for SOS4 shortly thereafter given that the Request for Proposal asked for a 90-day transition plan. The successful team would need to be in place and performing transition shortly after the New Year to meet the April 1st contract date. As I have communicated to you in the past, all of this is speculation but, as the days tick away, this timeline is becoming more and more probable. I will continue to keep you updated as we receive new information.

While I have your attention, I will be leaving tonight to spend Thanksgiving in South Carolina. I would like to take this opportunity to wish all of you a very Happy Thanksgiving. Be safe and enjoy your time with family and friends.

Sincerely,

Dane Anderson

Program Manager, USSE2 O&M Services
