Contract Update

12/03/2019

Dear Site Operations Support Services Employees,

NETL notified us on Monday that they have determined it necessary to extend the SOS3 contract for an additional two-months to allow for the proposal evaluation/selection process to be completed and the anticipated transition to a new contract. We will work with DOE on a contract modification to extend our current contract through 3/31/2020. Still no update on the award announcement. I will continue to update you as we get new information.

Sincerely,

Dane Anderson

Program Manager, USSE2 O&M Services

NETL, Site Operations Support Services
